

For the First Time in English Language at al-Mustafa International University

The Thirty-Sixth Criticizing Meeting for Scientific and Religious Approaches and Thoughts

## Manifestation of the Essence of God in Ibn Arabi's and Meister Eckhart's View

Ibn Arabi regards this matter in the way that it represents the Essence of God, namely the manifestation of the Essence of God and other worlds is because of His hiddenness in these worlds which is resulted from the Breath of the Merciful (the complete divine manifestation). Meister Eckhart also regards this matter as the truth of everything and originates from the divine perception of Himself, and this perception flows to all things by which the Essence of God manifested in the whole things including human, soul and the light.
